

# Word for ESCC – Julian Adams

17/05/2011

---

(0:27:0) As I have been praying for this church and thinking about my time here, there is a real sense that God is transitioning this church to an apostolic resource base. God is causing this church to begin to re-orientate itself around apostolic anointing and the prophetic and there's going to be a real flow of power. I believe God wants to encourage you that in these days as you begin to move in what He has called you to move in, that you are to anticipate the unexpected break-ins of God. You are to anticipate His power coming in unusual ways. (0:28:15)

(1:17:42) There is a sense in which this church is coming into a place of peace and rest. There has been a battle weariness. For some of you, you have been fighting through some things and believing God for some stuff. It's like you are just a little bit tired. And God says "I am going to bring rest to you in an incredible way." When you minister from the place of rest – breakthrough is easy. Esther exposed the works of the enemy in the context of celebration. (1:18:15)

(2.09.15) Lift the roof of this church. I break the ceiling right now over this church. God wants to speak to you about four areas of growth in this church.

First He wants to speak to the age group of 18 to 35's. God is about to bring a whole new increase of young married & young professionals into this church. You are going to grow like wild fire in that area. You are going to begin to see incredible anointing and life in that arena. God says there are going to be key leaders who will come out of the market place to be part of what He's going to grow in this church for there is a wineskin of favour in this area for you.

I feel secondly that God wants to speak to you about multiple services and multiple campuses. God is going to begin to open up doors of growth that are going to scatter you across this city and cause a wineskin of supernatural communities to be planted all over the place and there is going to be a supernatural growth. This building is either going to have to be extended or there are going to have to be some more meetings to keep up with what God is going to do. There is going to be a real evangelistic favour, evangelist potency that God wants to unlock in this season and you need to get ready for that because there's going to be real favour upon you in a remarkable way.

The third area that God wants to touch is the area of the poor and the needy, it's not just about starting another soup kitchen and it's about actually drawing and connecting with wealthy people in order to release funding into particular projects across this city and across this northern suburb bowl where there will be a release of life in a dramatic way. And so please hear me so it's not about do we need another soup kitchen and doing some nice work amongst the poor it's a strategy a holistic that's going to reach many more people and it is the result of the favour of God upon you so get ready.

And the fourth area is the area of the wineskin and I believe God wants to speak to you about the apostolic, about understanding what the apostolic is and I want to honour the apostolic in this house in Ken and your wife we recognise the apostolic and the fathering anointing upon you but I believe there's to be multiple fathers in this church and multiple mothers in this church and who will begin to release an army of young men and women. I feel like there will be a training school that God wants to release along side of this church and they will train people in the supernatural. They will begin to release people in the supernatural they will begin to touch even up into Africa and God says I am going to release African nation to you in this next season because I've called you to touch and I even believe there's a door open to

Europe to you and God say's I want you to get ready because I am going to release you in very significant ways Africa and Europe await for your footprints says the Lord our God. I feel God says there is going to be a much broader apostolic wineskin that will begin to shape this church & release this church. I believe there's a shift coming over this church and over the finances of this church to begin to facilitate this but it is a shift coming over the resources of this church that's not going to be just about money poured in but about people sent and you will have a much bigger missional radius that you have ever anticipated that the result of the apostolic and prophetic anointing that will be in this church will result in many, many signs and wonders and I believe even in the next three or four months there will be significant confirmations of this they will be to prepare your way for this Your leadership can begin to change the shape of leadership, your leadership going to begin to change .

I believe for you, Bruce & Judy, you see yourselves as good gatekeepers. As good pastors you've loved on your people you care for your people but the Lord would say to you that I am going to raise you up as a father and mother in this season. It won't just be about gathering people but about releasing people. And there will be sons going from this house and daughter who will go from this house and an emphasis on church planting in a very different way. It is not just about putting churches out there but it is about releasing sons to establish their own houses in God.

And I believe God wants to say to you don't just see yourself as a pastor and a teacher & one who primarily loves upon people because there is a pioneering edge that's coming to this church and it's going to look different and feel different. The wineskin is going to be a little bit different and the wine taste a little bit different.

New wine always tastes different because new wine has a much higher content of alcohol in it and gets you drunk quicker and there's new wine that's going to be poured out because it is going to effect your behaviour quicker. So don't be surprised when things begin to change.

I believe there is something about a 24/7 worship anointing on this church that God is beginning to unlock that.

A residential anointing. I see some land opening up somewhere like north of here it looks like a more kind of rural area, land opening up for training facilities. It's not built up but land suddenly opening up and someone approaching you, my brother and sister, to say "we've got this piece of land cordoned off, would you like to build training facilities, would you like to build something that's going to equip many people and release many people. And its got to do even with Africa and nations who would not be able to be influential and affluent enough. I see God releasing that. There's a revival mandate on this church. There's a revival mandate on this church. There's a revival mandate on this church. There's a revival mandate on this church.

And ? going to look very different. Don't be surprised – there are some unusual manifestation. Don't be surprised when things look differently, feel differently, sound differently.

Your worship is going to change too. There's going to be a lot more lingering and God's going to do some significant things and I want you to get ready for that says the Lord. It's going to look different, feel different.

I do feel like even the very aspects of this building is going to look different. I feel like there have been some plans that have been put on the back burner that God's says it's time to come out now. It's like I see what looks like an amphitheatre. I can see like a raised amphitheatre – does that make sense. God says – just get ready – something is about to break open that's going to be very different. So just – God's about to do some different things. His hand is on you. (2:17:28)
